

Global Synthetic Fuels Assembly

4-5 September 2025 | London, UK

Supporting partners:

Building the eFuels market and getting project lift-off

Register now

Hear strategies from expert speakers across the full value chain including:

Beata Kusova
Policy Officer
**European
Commission**

Roger Östlin
CEO
**Biorefinery
Östrand**

Yann Dumont
CEO
Reolum

Rik Sneep
SVP of Strategy &
Transformation
Moeve

Lara Naqushbandi
CEO
ETFuels

Tom Parsons
Global Partnerships
Lead, Biofuels Growth,
bp

Andrew Thomas,
Director of
Sustainability,
VistaJet

Katja Loehnert
Chief Project
Engineer
Sustainable
Aviation Fuel
Rolls Royce

Bringing enablers together to build the synthetic fuels market

Shape the future of synthetic fuels — connect, collaborate, innovate

Unite with key players in London on 4-5 September for the Global Synthetic Fuels Assembly. Our mission is to bring together the full value chain, **unlocking knowledge through collaborative formats** and **impactful conversations**, driving industry growth together.

Build real connections with 130+ synthetic fuel experts, including policymakers, renewable power companies, grid operators, e-fuel producers, traders, airlines, and shipping and road transportation companies. Explore best practices in building synthetic fuels into your **future business strategy**, learn how to **speed up FIDs**, **secure offtake agreements** and **engage with policy makers**.

Take part in networking and intimate industry discussions, gaining deep insights into key roadblocks to growth. You'll leave the event equipped with tangible solutions and actionable next steps.

Your expert speakers building the e-fuels market, include:

Visit www.globalsyntheticfuelsassembly.com/speakers for the full speaker list

Beata Kusova
Policy Officer
European
Commission

Roger Östlin
CEO
Biorefinery Östrand

Yann Dumont
CEO
Reolum

Gunnar Holen
CEO
Nordic Electrofuel

Lara Naqushbandi
CEO
ETFuels

Olaf Rumberg
CEO
E.ON

Moritz Schwencke
CEO and Co-Founder
Eternal Power

Tim Cayford
Co-Founder
Alléo Energy

Harvey Hodd
CEO & Founder
Rivan Industries

Francisco José Lucas Ochoa
Head of International
Aviation Business
Development, Repsol

Margaux Thoyer-Rozat
Sustainable Aviation
Fuel Manager
Air France-KLM

Tom Parsons
Global Partnerships
Lead, Biofuels Growth,
bp

Rik Sneepe
SVP of Strategy &
Transformation
Moeve

Floriana De Matteo
Global Head of e-SAF
Arcadia eFuels

Dario Formenti
Senior Systems
Manager
ISCC

Deniese Ramsundarsingh
Development Director
HYRO, Octopus Energy
Generation

Edward Glossop
Head of LNG &
Ammonia
Bunker Holding

Barry Lavery
Head of Europe
ReNew

Dimitrios Koufos
Associate Director
EBRD

Dr Faye Al Hersh,
Associate Director,
Development UAE
Green Hydrogen,
Masdar

Ruurd van der Heide
Commercial Manager
eFuels Rotterdam
Power2X

Who will you connect with?

A snapshot of the top companies you can expect to see at the Global Synthetic Fuels event:

Attendees by job title:

Chief Executive Officer
Chief Operations Officer
Chief Sustainability Officer
Chief Technology Officer
GM, Low Carbon Fuels
VP, Hydrogen Development
Global Head, Green Investments
VP, Renewable Fuels
Policy Manager
SAF Manager
Head of Aviation & Sustainability

Senior Vice President New Energy
Head of Energy Transition
Head of Power-to-X
Head, Clean Hydrogen Solutions
Head of Regulatory Affairs
Chartering Manager
CCUS, H2 & Low Carbon Fuels
Director of Sustainability
Head of Fuel Category
Commercial Project Manager
Sourcing Manager

Collaborate with key players across the value chain:

Governments/
Policymakers

Renewable
electricity

Feedstock
suppliers

eFuel
producer

Aviation

Shipping

Transportation

Finance

Technology

Storage &
Logistics

Agenda

Day 1: Thursday 4 September 2025

08.00 Morning registration and networking

09.00 Welcome from The Energy Huddle

Bryony Senczyszyn, Founder, **The Energy Huddle**

09.10 Chairperson's opening remarks

Jenny Kavanagh, Co-Chair, **Zero Emissions Flight Infrastructure Group**

SWITCHING ON THE SYNTHETIC FUELS MARKET

09.20 **Keynote speech: Powering a sustainable future: Building energy parks for a secure supply of renewable electricity and gas**

- Commitments to the eFuels market and its significant role in fuel decarbonisation
- Developing strategic partnerships across the value chain and new sustainable strategies
- Investing in new technologies and construction for renewable power production

Olaf Rumberg, CEO, **E.ON Gas Mobil**

09.40 **CEO keynote panel: Exploring the scalability of synthetic fuels and creating a market to help decarbonise the road, aviation and shipping industries**

- What investments are being made in synthetic fuels and what does the future look like?
- How can we drive long-term commitment and engagement from offtakers and consumers?

- What is the scalability of synthetic fuels and how will competing value chains interact?
- How will eFuels be blended to create synthetic diesel and links with CO₂ reduction efforts?

Speakers:

Gunnar Holen, CEO, **Nordic Electrofuel**

Moritz Schwencke, CEO and Co-Founder, **Eternal Power**

Lara Naqushbandi, CEO, **ETFuels**

10.10 Networking coffee break including 1-2-1 meetings stations

A CHANGING REGULATORY ENVIRONMENT TO SUPPORT AND DIRECT THE INDUSTRY FORWARD

11.00 **Regulatory panel discussion: Enhancing clarity on synthetic fuel regulations and bridging the policy gap between the UK and EU regarding synthetic molecules**

- How will the 2035 ban on internal combustion engines and the evolving CO₂ emission regulations influence the eFuels market?
- Addressing regulatory gaps around synthetic fuels and molecules, including carbon and CO₂
- What are the revenue certainty options, and can the UK's approach work in the EU?

Speakers include: **Chelsea Baldino**, Fuels Program Lead, **ICCT**

Tiphaine Angla, Policy Advisor, **FuelsEurope**

Agenda

Day 1: Thursday 4 September 2025

11.30 **SAF regulatory focus panel discussion: How ReFuelEU and EU ETS mechanisms will shape eSAF offtakes post-2027 and the shift towards emission allowances**

- How will ReFuelEU mechanisms aid eSAF production and refuelling within Europe?
- How are policies helping companies get bankable offtakes in place and reach FIDs?
- How are the expectations for the Clean Industrial Deal aligned with the goals of the Sustainable Transport Investment Plan (STIP)?
- What is the outcome for carbon removal and allowances from the EU ETS discussions?
- What requirements must imported eSAF from Brazil, the US, and China meet to satisfy EU standards?

Moderator:

Emma Richardson, Head of Policy & Research and Aviation Programme Lead, **Climate Catalyst**

Speakers:

Beata Kusova, Policy Officer – Aviation, **European Commission**

Monika Rybakowska, Policy Director, **Airlines for Europe**

Geert Decock, Electricity & Energy Manager, **Transport & Environment**

12.10 Networking lunch

FEEDSTOCKS: SOURCING SUSTAINABLE CO₂ AND HYDROGEN FOR SYNTHETIC FUEL PRODUCTION

13.40 **Decarbonising synthetic molecule feedstock panel: Sustainable and cost-effective CO₂ and hydrogen sourcing**

- What does the competitive landscape look like for sourcing biogenic CO₂ as a feedstock?

- What projects are there in carbon capture and sequestration to supply feedstocks?
- What opportunities does biochar present as a CO₂ source and what incentives are available for the biomass industry, including credits?
- Global hydrogen projects: new investments and additional supply in the market
- What are the developments for hydrogen use as a feedstock for HVO production?

Moderator:

Arno van den Bos, Analyst, Green Hydrogen Energy (Power to X), **International Renewable Energy Agency (IRENA)**

Speakers: **Tudy Bernier**, Policy Director, **CO₂ Value Europe**

Tim Cayford, Co-Founder, **Alléo Energy**

14.10 **Hydrogen supplier perspective: Realising and scaling green hydrogen for a reliable supply: Small steps for big impact**

- Increasing hydrogen production across Europe: updates on UK, France and Spain projects
- Building supply chains and strategies for ensuring security of supply
- Navigating financial commitments and opportunities for scaling up – why start small?

Boris Davis, Head of Business Development for UK, **Lhyfe**

14.30 **Teesside cluster case study: Building the UK's eSAF hub with feedstock access and infrastructure**

- Explore Teesside's role in becoming a national leader in eSAF production and future supply
- Leveraging low-cost renewable feedstock through CCS technologies and green hydrogen

Agenda

Day 1: Thursday 4 September 2025

- Understanding funding mechanisms, PtL (Power-to-Liquid) facilities and carbon capture integration

Francis Batchelor, Net Zero Technology Officer,
Tees Valley Combined Authority

14.50 Afternoon coffee break and interactive huddles

Huddle 1: CO₂ competitive pathways: Carbon credits and eSAF

Huddle 2: Lowering the cost of PtL technologies for scalable production

Huddle 3: Utilising catalysts that convert ammonia to hydrogen with long-term stability

Huddle 4: Speeding up FIDs and reaching offtake agreements

Speaker: **Dimitrios Koufos**, Associate Director, **EBRD**

Huddle 5: Accelerating the development of electric natural gas (eNG)

Speaker: **Rafik Ammar**, Policy Director, **e-NG Coalition**

15.50 **Building up a credible and robust certification system that can be translated across international supply chains**

- Recognition of voluntary schemes: rules and timelines to certify RFNBO under EU market
- Understanding how to calculate GHG emissions in relation to sourcing electricity
- What is the guidance surrounding certifying biogenic CO₂?

Dario Formenti, Senior Systems Manager, **ISCC**

16.10 **Keynote global panel discussion: Establishing a new green hydrogen corridor through the international sourcing of molecules**

- Where do we see international investments for green hydrogen and export opportunities?
- Which European markets are open to imports and how to overcome logistical challenges?

- What is the role of effective pricing carbon mechanisms and how is global trade impacted?

Speakers:

Dr Faye Al Hersh, Associate Director, Development, UAE,

Masdar Green Hydrogen

Barry Lavery, Head of Europe, **ReNew**

Ruurd van der Heide, Commercial Manager eFuels Rotterdam, **Power2X**

Frank Mischler, Director, Policy, **International PtX Hub**

16.50 Chairperson's closing remarks

Jenny Kavanagh, Co-Chair, **Zero Emissions Flight Infrastructure Group**

17.00 Networking drinks reception

Day 2: Friday 5 September 2025

08.30 Morning coffee and networking

09.20 Chairperson's opening remarks

KEYNOTE PRODUCER INVESTMENT CASE STUDIES

09.30 **Keynote case study: Investing in a hybrid eSAF plant and securing electricity to deliver ultra-low carbon fuels for the aviation industry**

- What have been the lessons learnt during the planning and early engineering phases?

Agenda

Day 2: Friday 5 September 2025

- New innovations in the production process to cut costs and improving supply chain efficiencies
- Minimising the risk of securing electricity to a future energy intensive industry

Roger Östlin, CEO, **Biorefinery Östrand**

09.50 **Keynote case study: Setting up large-scale e-methanol production to support the phase out of fossil fuels in hard-to-abate industries**

- Expectations on project timelines and new e-methanol and e-gasoline supply into the market
- Sourcing biogenic carbon dioxide and investing in technologies
- Operating a combined heat and power plant on renewable energy

Yann Dumont, CEO, **Reolum**

DEMAND DRIVERS FOR FUTURE CONSUMPTION

10.10 **Airline spotlight panel discussion: How eSAF will become a key component in meeting the ambitious goals of the global aviation industry**

- Where will eSAF be produced and how to upscale the supply of eSAF at a reasonable price?
- Exploring feedstock availability for eSAF production and securing a reliable supply chain
- How are companies securing offtake agreements and enhancing project viability for financial support?

Margaux Thoyer-Rozat, Sustainable Aviation Fuel Manager, **Air France-KLM**

Andrew Thomas, Director of Sustainability, **VistaJet**

Germain Hurtado, Hydrogen Technologies and Projects Director, **VINCI Concessions**

Sergio Alegre Calero, Director General, **Airports Regions Council**

10.40 Morning coffee break and open-space networking

Open-space networking

Join a table during the coffee break for open and free-flowing discussions on topics generated by you. Use our innovation kits and brainstorming to give you a helping hand

11.40 **Suppliers perspective panel: Scaling up eSAF: How to scale up commercial production to meet demand**

- What steps does the industry need to take to commercialise eSAF production in Europe?
- How are companies securing a feedstock supply of CO₂ and green hydrogen and are there limitations?
- How the industry tackle costs and the role of policy in harnessing a growth environment

Speakers:

Francisco José Lucas Ochoa, Head of International Aviation Business Development, **Repsol**

Rik Sneep, SVP of Strategy & Transformation, **Moeve**

Floriana De Matteo, Global Head of e-SAF, **Arcadia eFuels**

12.10 **Shipping spotlight panel: The future of adopting greener fuels in shipping and the reality of e-methanol, e-ammonia and e-LNG**

- What is the IMO's position in greener fuels and what mandates can be expected and when?
- How can offtake structures be adopted to reflect the needs of the shipping industry?
- Which energy carrier is most suitable for shipping, and what are the implications for infrastructure, storage, and onboard hazards?

Moderator: **Rafik Ammar**, Policy Director, **e-NG Coalition**

Agenda

Day 2: Friday 5 September 2025

Speakers:

Matthías Ólafsson, Executive Consultant, **eFuel Alliance**

Edward Glossop, Head of LNG & Ammonia, **Bunker Holding**

Marthe Therese Solaas, VP, Bunkering & Market Development,

Yara Clean Ammonia

SECURING PROJECT FINANCE

12.40 **360 views on project financing: Understanding the requirements of securing finance and how to assist bank processes**

- Demonstrating technology is scalable and will work on a commercial basis
- Feedstock supply: how feedstock is secured and priced and the role of the offtaker?
- How to include price as part of strategic planning and dealing with high costs

Moderator: **Emily Hickson**, Director, Europe, **Climate Catalyst**

Speakers:

Sébastien Paillat, Head of Investments, **Hy24**

Peter Conway, Director, **Energy Estate**

Dimitrios Koufos, Associate Director, **EBRD**

13.10 Networking lunch

14.00 **Speeding up FIDs through revenue mechanisms and gaining offtake agreements**

- How industry can reach FIDs – and working in the cost of electricity
- Could the EU take an approach under the ETS whereby funding is increased for eFuels?

- What are the funding options for development finance including for feasibility studies?
- Gaining offtake agreements and understanding who takes the commercial risk: what can be done differently?

Speakers:

Deniese Ramsundarsingh, Development Director,

HYRO, **Octopus Energy Generation**

Martin Forman, Director, **ISD New Energies & Natural Resources**, EMEA,

SMBC Bank International

Eduardo Famini Silva, Director, Renewables and Energy Transition,

RBC Capital Markets

EXPLORING VARIOUS TECHNOLOGY PATHWAYS AND ROUTES TO PRODUCTION

14.20 **Technology spotlight debate: Exploring Power-to-Liquid and Power-to-Gas technologies: Implementing proven technology for commercial use**

- What are the technical advantages of eMethanol-to-Jet (MTJ) and steps left to approval?
- What technologies have been proven and how fast can they be scalable?
- Utilising CO₂-to-methanol technologies for maximum feedstock utilisation
- Power-to-Gas technologies for e-methane production
- What are the standards for materials and testing?

Tom Parsons, Global Partnerships Lead, Biofuels Growth, **bp**

Harvey Hodd, CEO & Founder, **Rivan Industries**

Katja Loehnert, Chief Project Engineer Sustainable Aviation Fuel,

Rolls Royce

Agenda

Day 2: Friday 5 September 2025

SUSTAINABILITY AND GHG EMISSIONS

15.10 **Keynote panel: Assessing the sustainability of fuel pathways and reducing life cycle greenhouse gas (GHG) emissions**

- Understanding the criteria of producing renewable fuels from RFNBOs
 - what constitutes a sustainable source of CO₂ and hydrogen?
- Sourcing renewable electricity over the grid with negative GHG impacts
- How effective is capturing carbon in improving the carbon life cycle of a project?
- Understanding the role of Book and Claim within the market

Lee Beck, SVP Global Policy & Commercial Strategy, **HIF Global**

15.50 Afternoon coffee and networking

16.00 Interactive huddles

Huddle 1: What is the role of the O&G industry in upscaling synthetic fuels?

Speaker confirmed: **Emily Hickson**, Director, Europe, **Climate Catalyst**

Huddle 2: How Book and Claim is aiding synthetic fuel development

Speaker confirmed: **Gill Alker**, Book and Claim Manager, **RSB**

Huddle 3: Maritime's transition to alternative fuels

Prof. Dr. Stefan Ulreich, Professor of Energy Economics,

Biberach University of Applied Sciences

Huddle 4: Derisking projects: Achieving FIDs and meeting requirements

Huddle 5: Conducting life cycle GHG assessments

16.50 Conclusion of roundtables

17.00 Close of conference

Attend the event – transform your business

The value you'll gain from this high-level, strategic networking event:

1

Your chance to meet with the FULL synthetic fuels VALUE CHAIN:

Collaborate with regulators, project developers, offtakers, technology, electricity producers, hydrogen and CO₂ suppliers, finance and their partners. Exchange knowledge and form new strategic partnerships that will help you build a success future.

2

Hear from a c-suite of speakers who will SHARE REAL STRATEGIES from experience

Learn how to speed up FIDs, unravel the regulatory landscape and hear success stories and lessons learnt. A unique opportunity to quiz our world-class speakers and gain exclusive knowledge.

3

Get involved! Actively PARTICIPATE for enhanced conversations and ideas to flourish

We've carved out a unique networking experience for you at the event. We believe real value comes from bringing together the most intelligent minds in the room. Join with purpose, innovate and build together.

3 unique collaborative formats for deeper discussions and real takeaways

Interactive Huddles

Participate in Huddles for laser-focused discussions and deep-dive into your main challenge, exchange strategies and walk away with real takeaways that will impact your business as soon as you're back at your desk

1-2-1 matchmaking

A dedicated networking area at the venue for your 1-2-1 meetings. Pre-book in advance and spend valuable time right in front of new clients

Open-space networking

It's time to think big and innovate. Join an open discussion where fresh ideas take shape, and use our innovation kits to spark creativity during this dynamic brainstorming session

Chatham House Rules*

We promote open, honest, and transparent discussions so we can prioritise uncovering the core of the issues and have conversations that will change business

"This challenge is too big for any single player. It's essential to find partners who are aligned in purpose and to build toward shared outcomes. That's why we actively collaborate with thought leaders and policy institutions—to help shape the ecosystem, not just operate within it"

Lara Naqushbandi, CEO, ETFuels

"Because the barriers we face are structural and cannot be solved by any one actor alone. We need joined-up efforts across industry, government, and finance to address the chicken-and-egg dilemma of supply and demand"

Monika Rybakowska, Policy Director, Airlines for Europe

Make your brand visible: Sponsorship options

Lanyard or badge sponsor

Maximise your visibility by having your brand worn by every single delegate at the event

Huddle sponsor

Lead an intimate discussion and be seen as a thought-leader amongst your clients

Exhibitor

Create your own networking space and showcase your expertise and products

Networking drinks reception

Host the drinks reception and your clients in the beautiful Maxwell Library and enjoy a relaxed atmosphere

Networking zone sponsor

Place your brand at the heart of networking. Opportunities for branded banners, charging stations and branded table covers

Breakfast/Lunch sponsor

Host a Team lunch huddle, complete with your own dedicated signage, personalised napkins and table tent cards

We tailor your package to ensure your brand gets the right visibility, to align perfectly with your event goals

Contact us:
Bryony Senczyszyn
Cell: +44 (0)7930 537 969
Email: bryony@theenergyhuddle.com
