

Global Synthetic Fuels Assembly

8th - 9th September 2026 | London, UK

**Register your
place now**

The meeting place where
collaboration and industry dialogue
ignite the eFuels industry's next steps

A unique panel of speakers including:

Claes Fredriksson
CEO
Liquid Wind

**Cyril Dufau-
Sansot**
CEO
Hy2gen

**Lara
Naqushbandi**
CEO
ETFuels

Vijay Sirse
CEO
Destiny Energy

**Sophie
Zienkiewicz**
Co-Founder,
**Carbon Neutral
Fuels**

Gunnar Holen
CEO
**Nordic
Electrofuel**

**Floriana
De Matteo**
Global Head,
eSAF
Arcadia eFuels

Diego Fettweis
Chief Commercial
Officer
HIF Global

Silver sponsor:

Shell Catalysts & Technologies

Transforming energy together

Technology sponsors:

JM Johnson
Matthey

SYNTHOLENE
ENERGY

KHIMOD
ALCEN

www.globalsyntheticfuelsassembly.com

Bringing enablers together to build the synthetic fuels market

Attend your community's focused event to:

Secure funding and offtakes for eFuel projects:

Hear from project developers including **HIF Global**, **ET Fuels**, **Liquid Wind** on the real truths – what worked and what didn't.

Build and utilise existing supply chains to reduce risk:

Explore the role of the trader and hear from **Moeve** and **Arcadia eFuels** on building reliable supply chains.

Take a focused look across the eSAF, eNG, eMethanol and eAmmonia landscapes:

Quiz experts from **MGH Energy**, **Södra** and **Burando Energies** on scaling new synthetic fuel commodities.

Explore eFuel strategies with the biggest names in the business

Claes Fredriksson
CEO
Liquid Wind

Cyril Dufau-Sansot
CEO
Hy2gen

Lara Naqushbandi
CEO
ETFuels

Diego Fettweis
Chief Commercial Officer
HIF Global

Sophie Zienkiewicz
Co-Founder
Carbon Neutral Fuels

Rik Sneeep
SVP Strategy & International Growth, **Moeve**

Floriana De Matteo
Global Head of eSAF
Arcadia eFuels

Peter Goult
Director
Project SkyPower

Valerie Ahrens
Global Head of Methanol
Burando Energies

Jorge Palomar
Global Green Hydrogen Business Development Director, **Iberdrola**

Henrik Brodin
Head of Energy Transition
Södra

Sofia Chrysafi
Senior Manager, Regulatory Affairs, Bioenergy, **bp**

Deniese Ramsundarsingh
Development Director, **HYRO**

Tom Taylor
Aviation Policy Manager
Transport & Environment

Juan Marulanda
Sustainability Manager, eFuels / RFNBOS
ISCC

Jock Hughson
Licensing Deployment Manager XTL
Shell Catalysts & Technologies

Dimitrios Koufos
Associate Director
EBRD

Helen Atkinson
Business Development Manager
Johnson Matthey

Pascal Roucau
Head of Project Management, eFuel
MGH Energy

Dave Kidd
Commercial Director
Shell Catalysts & Technologies

Alexandra Popova
Policy Officer
e-NG Coalition

The meeting place where collaboration defines the eFuel industry's next steps

Here are just some of the companies who participated in 2025

Scan the QR code to view the 2025 attendee list online.

Attendees by job title:

Chief Executive Officer
Chief Operations Officer
Chief Sustainability Officer
Chief Technology Officer
GM, Low Carbon Fuels
VP, Hydrogen Development
Global Head, Green Investments
VP, Renewable Fuels
Policy Manager
SAF Manager
Head of Aviation & Sustainability

Senior Vice President New Energy
Head of Energy Transition
Head of Power-to-X
Head, Clean Hydrogen Solutions
Head of Regulatory Affairs
Chartering Manager
CCUS, H2 & Low Carbon Fuels
Director of Sustainability
Head of Fuel Category
Commercial Project Manager
Sourcing Manager

Collaborate with key players across the value chain:

Governments/
Policymakers

Renewable
electricity

Feedstock
suppliers

eFuel
producer

Aviation

Shipping

Transportation

Finance

Technology

Storage &
Logistics

Agenda: Conference Day One

Tuesday 8 September 2026

08.00 Morning registration, breakfast and networking

09.00 Welcome from The Energy Huddle

Bryony Senczyszyn, Founder, **The Energy Huddle**

09.10 Chairperson's opening remarks

BOOSTING E-FUEL DEVELOPMENT: FROM FIRST MOVER PROJECTS TO FULL-SCALE MARKETS

09.20 **Keynote address: Building scale and resilience in SAF and preparing for the eSAF era**

- Addressing an energy resilience narrative and how this aligns with national defence priorities
- China, India and Japan: the impact on competitiveness, technology and pricing
- With eFuels entering the market at a premium, how can we close the cost gap?

Diego Fettweis, Chief Commercial Officer, **HIF Global**

09.40 **Keynote stakeholder panel: Creating a greener environment and a synthetic fuels supply chain that drives growth and market liquidity**

- What is the current demand on eFuels and what pathways are becoming more viable?
- How are local supply chains being established – from feedstocks to trading to production?
- How should synthetic fuels be included in broader regulatory frameworks?

- Valorising emerging e-molecules including eNaphtha and low-carbon chemicals

Moderator:

Emily Hickson, Senior Director, Europe, **Climate Catalyst**

Speakers:

Cyril Dufau-Sansot, CEO, **Hy2gen**

Lara Naqushbandi, CEO, **ETFuels**

Vijay Sirse, CEO, **Destiny Energy**

10.10 **CEO project developers' panel: How are eFuel projects scaling from modular starts to large scale pipeline and what do good business models for projects look like?**

- What support and de-risking tools can help first-of-a-kind projects reach economic viability?
- How can we improve the timelines for APAs to help support project bankability?
- Should projects start small to de-risk production or large, to decrease costs?
- How are decentralised players accessing blending facilities?

Moderator:

Emily Hickson, Senior Director, Europe, **Climate Catalyst**

Speakers:

Claes Fredriksson, CEO, **Liquid Wind**

Sophie Zienkiewicz, Co-Founder, **Carbon Neutral Fuels**

Gunnar Holen, CEO, **Nordic Electrofuel**

10.40 Networking coffee break including 1-2-1 meetings stations

Agenda: Conference Day One

Tuesday 8 September 2026

REGULATORY ADOPTION TO ADVANCE THE PRODUCTION OF E-FUELS

11.30 **Regulatory panel discussion: Creating a coherent EU framework and ecosystem to boost production and improve competitiveness**

- What does the RFNBO review mean for green hydrogen and eFuel investment decisions?
- How will the Double-Sided Auction evolve from a German pilot to a European mechanism?
- How will the reopening of ReFuelEU Aviation reshape mandates and market certainty?
- Early Mover's Coalition: how will this play out and what are the current details?
- How can the Industrial Accelerator Act help protect Europe's competitiveness?

Moderator:

Speakers include:

Peter Gault, Director, **Project SkyPower**

Aurelia Leeuw, Director of EU Policy, **The SASHA Coalition**

Sofia Chrysafi, Senior Manager, Regulatory Affairs, Bioenergy, **bp**

12.10 **Regulatory debate: How regulations and revenue certainty mechanisms are de-risking eFuels at scale**

- What revenue-certainty mechanisms are moving risk and liability off customers and onto the government balance sheets?
- How can the system be set up so allowances are available in advance of paying for SAF?
- How are SAF allowances derisking eFuel investments and will they be extended post 2030?
- What does the impact of CBAM impact mean for the industry?

Moderator:

Senior representative, **Project SkyPower**

Speakers include:

Tom Taylor, Aviation Policy Manager, **Transport & Environment**

Susan Shannon, EVP, Strategy, Public Policy and Government Affairs, **Power2X**

12.40 Networking lunch

A NEW TRADING LANDSCAPE AND UTILISATION OF NEW OR EXISTING SUPPLY CHAINS

13.40 **Trading panel discussion: How distributors can fill supply and offtake gaps to manage project risk and utilise existing supply chains**

- How are traders helping eFuel project developers manage risk exposure?
- Which existing supply chain networks can be utilised by SAF suppliers and oil majors?
- How will RFNBOs be integrated into the fuel mix?

Speakers include:

Rik Sneepe, SVP Strategy & International Growth, **Moeve**

Floriana De Matteo, Global Head of eSAF, **Arcadia eFuels**

14.10 **Trading platform spotlight: How new platform developments are driving liquidity and narrowing the price gap**

- When will trading platforms be implemented for the eFuels market?
- How is price discovery helping to create transparency and fairness in the industry?

Agenda: Conference Day One

Tuesday 8 September 2026

SECURING A RELIABLE SUPPLY OF RENEWABLE ELECTRICITY

14.30 **Panel discussion: Securing low-carbon electricity and navigating complex projects**

- What level of grid quality and stability is required to support e-fuel production at scale?
- Is the market looking towards PPAs and how viable is nuclear power as an electricity source?
- What electricity price levels are needed to make projects more economically viable?

14.50 **Afternoon coffee break and interactive Huddles**

Join laser-focused group discussions. Collaborate with like-minded attendees and shape new strategies. Reflect on insights from the main stage and through candid and open discussions you will leave with clear, actionable takeaways.

Huddle 1: Licensing scope, performance guarantees, and process block integration. Understanding licensing models for synthetic fuels projects
Led by: **Dave Kidd**, Commercial Director, **Shell Catalysts & Technologies**

Huddle 2: Applying Book and Claim and reviewing its commercial advantages

Huddle 3: RFNBOs as intermediates serve as a pathway to compliance and meeting targets with legacy fuel production assets

Led by: **Juan Marulanda**, Sustainability Manager – eFuels / RFNBOs, **ISCC**

Huddle 4: Lowering the cost of electrons with new engineering catalysts and solutions

Huddle 5: The FID year: Where we are and securing future offtake agreements

16.00 **Panel discussion: Securing cost-competitive green hydrogen and exploring various pathways and trading routes**

- Assessing the cost stack and impact on power input costs: how to keep prices minimal?
- How can the industry address the challenges of additionality and temporality?
- What should new regulations around green hydrogen look like to ensure RFNBO compliance?

Speakers include:

Javier Salgado González, Senior Green Hydrogen Manager, **Renewco Power**

Jorge Palomar, Global Green Hydrogen Business Development Director, **Iberdrola**

Stephen Livermore, Technical Manager, **Green Cat Hydrogen**

Agenda: Conference Day One continued

Tuesday 8 September 2026

16.30 **Panel discussion: Accessing CO₂ supply and navigating a fragmented feedstock picture**

- How are companies securing CO₂ in a fragmented market – is flexibility with suppliers' key?
- What CO₂ sources will be utilised and will remain consistent and cost competitive over time?
- How you define biogenic CO₂, mandates including carbon tax and various business cases?

Speakers include:

Ian Collier, Business Development Director – Aviation, **1PointFive**

Irene Zanni, Policy Advisor, **Eurogas**

17.00 Chairperson's closing remarks

17.10 – 19.00

Networking drinks reception with canapés and entertainment

Join fellow participants for evening networking with canapés and special surprise entertainment to round off the day!

Conference Day Two: Wednesday 9 Sept.

08.30 Morning networking and breakfast

09.20 Chairperson's opening remarks

E-FUEL SPOTLIGHTS AND END-USER PERSPECTIVES

09.30 **Maritime spotlight: Scaling eMethanol production to meet growing demand and creating mechanisms to boost eMethanol and eAmmonia production**

- Where are we seeing new demand and supply of eMethanol and eAmmonia?
- How is the carbon pricing mechanism reducing the cost of production on a global level?
- Under IMO regulations how will fuels be certified and what feedstocks can be used?

Speakers include:

Adrien Carpentier, Head of BOP, Infrastructures, Renewable Energy and Maritime Affairs, **MGH Energy**

Valerie Ahrens, Global Head of Methanol, **Burando Energies**

10.00 **Airline perspectives and SAF spotlight: How eSAF is integrating itself into the jet-fuel mix and blending capabilities**

- How can the airline industry build and operate a multi-fuel system in practice?
- What fuel types will airlines use and what parameters are set, including price?
- How is the carbon strategy changing around sustainable aviation fuels?

10.30 **eMethane spotlight: How can eMethane, eLNG and eNG play a role in decarbonising gas grids and industrial heating applications**

- Where do we see interest in eMethane adoption, in what applications and at what price?
- What are the benefits including using existing gas infrastructure?
- How will Guarantees of Origin and mass balance approaches help develop new markets?

Agenda: Conference Day Two

Wednesday 9 September 2026

Speakers include:

Henrik Brodin, Head of Energy Transition, **Södra**
Alexandra Popova, Policy Officer, **e-NG Coalition**
Lauri Puro, Head of Project Development, **Ren-Gas**

11.00 Morning coffee and networking

CERTIFICATION, VOLUNTARY MARKETS AND BOOK AND CLAIM

11.40 **Designing credible certification and reporting systems to manage mass balance and sustainability assurance across complex eFuel supply chains**

- How will RNFBO certificates work in the EU and UK market and how will this align?
- Which buy-side entity should hold and guarantee certified sustainability claims?
- How can pre-certification tools unlock access to funding mechanisms such as HINTCO and the double-sided auction?
- How will Book and Claim create commercial advantages through flexibility, pricing and improved bankability?

Speakers include: **Juan Marulanda**, Sustainability Manager – eFuels / RNFBOs, **ISCC**

PROJECT MANAGEMENT AND ENGINEERING CAPABILITIES TO AID MARKET GROWTH

12.10 **Project panel discussion: How EPCs structure supply chains and project scope to enable e-Fuel project development**

- What is the role of EPCs in building new markets by addressing operational costs?

- How can you purchase low-cost electrons to make feedstocks more cost-competitive?
- How can the technical scope be optimised so projects are financeable at scale?
- How to wrap up supply chains to increase efficiencies and attract investors

Jock Hughson, Licensing Deployment Manager XTL, **Shell Catalysts & Technologies**

12.40 **Tech spotlight: Accelerating new technologies and chemical processes that meet project requirements and reduce overall production costs**

- How can we improve capital efficiency including utilisation rates and operational flexibility?
- How are Fischer–Tropsch catalysts and reactors improving product output and selectivity?
- To what extent are carbon prices and incentives driving technology adoption?

Helen Atkinson, Business Development Manager, **Johnson Matthey**
Dan Sutton, CEO, **Syntholene**
Nicolas Serrie, CEO, **KHIMOD**

13.20 Networking lunch

EXPLORING THE BEST ROUTES TO REACH FID

14.20 **Finance panel: Bank requirements for eFuel projects and new mechanisms helping to integrate eFuels into new energy sectors**

- How can the industry meet bank requirements including ESG and business plans?
- What duration and structure do you require for key feedstock agreements?

Agenda: Conference Day Two

Wednesday 9 September 2026

- How will the Double-Sided auction work in practice and how impactful will it be?
- How do you see ETS revenues and financial insurance mechanisms supporting projects?

Speakers include:

Michele Verde, Investment Banking Vice President, **RBC Capital Markets**

Mahesh Roy, Programme Director, SAF, **Green Finance Institute**

Thomas Engelmann, CEO, **PtX Development Fund**

14.50 Panel debate: Reaching FIDS: The role of guarantees and intermediaries in securing bankable offtakes before 2030

- How can regulation create a framework that really facilitates offtake agreements?
- How do intermediaries help de-risk offtake and provide the guarantees needed for FIDs?
- How do parent company guarantees fit into the wider guarantee framework needed to make offtake bankable?

Speakers include:

Dimitrios Koufos, Associate Director, **EBRD**

Martin Forman, Director, **Sumitomo Mitsui Banking Corporation**

Deniese Ramsundarsingh, Development Director, **HYRO, Octopus Energy Generation**

BENEFITTING FROM EUROPEAN INFRASTRUCTURE TO AID SUPPLY CHAINS

15.20 **Keynote infrastructure spotlight: Connecting production to consumption hubs through existing infrastructure and terminals in Rotterdam**

- What infrastructure is needed to link refinery blending with port terminals and harbours?
- How will green hydrogen be transported and what capabilities exist for cracking?
- Where are the optimal locations for refineries to blend, and distance to airports?
- How will Book and Claim help airports with kerosene fuel mixes?

Gavin Templeton, CEO, **Veri Energy**

Benjamin Dennhardt, Business Development Low Carbon Molecules, **EnBW**

Huddle 1: What is the role of trading houses and distributors in developing the market?

Leader:

Pascal Roucau, Head of Project Management, eFuel, **MGH Energy**

Huddle 2: A developing green hydrogen market and securing feedstock at a lower cost

Leader:

Benjamin Dennhardt, Business Development Low Carbon Molecules, **EnBW**

Huddle 3: Securing low carbon electricity and the quality of the grid

Huddle 4: Looking at eFuel business models and benefits of different approaches

Leader: **Felix Leworthy**, Chief Commercial Officer, **ETFuels**

16.00 Afternoon coffee break and **interactive huddles**

Unexpected conferences, because we do them differently

We focus on creating space that turns your conversations into real return on investment

1

A focused room means all your conversations are valuable

Everyone in the room shares the same challenges. When decision makers across the value chain come together, you unlock new ideas and move forward with new partnerships that will help your business grow.

2

A membership, without the members fee - with 365 year round connection

There'll be lots of opportunity to stay connected with your community post event. Attend our online Digital Cafes, stay connected on the App, join webinars and attend our free-to-attend client mixers during London Climate Week.

3

Face-to-face, hands-on collaboration so you are part of building the future

We don't believe in spending all your time in a conference room listening to panels. You'll have hands-on discussions during our interactive Huddles on both days of the event.

"The size and set-up of this conference was great. Everyone who was there, wanted to be there! This means that every conversation becomes meaningful."

Chief Executive Officer, **Secant Fuel**

Connect with your industry, away from the main stage

Interactive Group Huddles

Participate in Huddles for laser-focused discussions and deep-dive into your main challenge, exchange strategies and walk away with real takeaways that will impact your business as soon as you're back at your desk.

"The most informative and engaging conference in many a year."
Director, **Energy Estate**

"This forum made complex hurdles feel solvable together"
Managing Director & Owner, **Via Solutis**

1-2-1 matchmaking

A dedicated networking area at the venue for your 1-2-1 meetings. Pre-book on the App in advance and spend valuable time right in front of new clients.

Chatham House Rules*

We promote open, honest, and transparent discussions so we can prioritise uncovering the core of the issues and have conversations that will change business

"A unique platform to connect with innovators and decision-makers driving the future of sustainable aviation fuels. From H₂ to eSAF, the Global Synthetic Fuels Assembly offered valuable insights and connections that align perfectly with Repsol's commitment to the energy transition."

Head of International Aviation Business Development, **Repsol**

Make your brand visible: Sponsorship options

Lanyard or badge sponsor

Maximise your visibility by having your brand worn by every single delegate at the event

Huddle sponsor

Lead an intimate discussion and be seen as a thought-leader amongst your clients

Exhibitor

Create your own networking space and showcase your expertise and products

Networking drinks reception

Host the drinks reception and your clients in the beautiful Maxwell Library and enjoy a relaxed atmosphere

Networking zone sponsor

Place your brand at the heart of networking. Opportunities for branded banners, charging stations and branded table covers

Breakfast/Lunch sponsor

Host a Team lunch huddle, complete with your own dedicated signage, personalised napkins and table tent cards

We tailor your package to ensure your brand gets the right visibility, to align perfectly with your event goals
